Synopsis:

Along the Carpathian mountains of Transylvania, a meek English real estate agent journeys to meet a new and mysterious client...COUNT DRACULA!!

Dracula, Comedy of Terrors follows the legendary Count Dracula as he travels to England to seduce the woman of his dreams, stirring up danger, magic, sensuality and silliness. Bram Stoker's epic horror story hilariously reimagined with a dash of Mel Brooks and a pinch of Monty Python. It is a recipe guaranteed to raise your pulse and emit blood curdling screams of laughter!
